Ms. Joan Sowinski
Colorado Department of Health
Waste Management Division
4210 East 11th Avenue
Denver, Colorado 80220

Dear Ms. Sowinski:

As you may know, our client Frankel Manufacturing Company was recently visited and advised by representatives of the federal and state government that a number of barrels located on Frankel's property apparently contain hazardous materials. Frankel wishes to cooperate fully with the responsible government agencies and to properly dispose of these materials as promptly as possible. Frankel has already contacted a number of authorized hazardous waste treatment, storage and disposal facilities, and plans to enter into a contractual arrangement for disposal of these materials within the month. In order to do so, Frankel will need a hazardous waste generator identification number. Accordingly, Frankel hereby submits its Notification of Hazardous Waste Activity for your review.

Because Frankel desires to remedy any problems of concern to either your department or the U.S. Environmental Protection Agency as quickly as possible, we request that your office expedite processing of this Notification to the greatest extent possible so that final arrangements to properly dispose of the wastes of concern may be made. If your department has questions or concerns regarding the submitted notification, we would very much appreciate it if you could contact either Michael Brennan of this office or myself by telephone so that we may assist you in promptly resolving them. If Frankel, in the course of arranging for disposal, learns of any additional matters pertinent to this Notification, we will promptly notify both your department and Region VIII of the U.S. Environmental Protection Agency.
